

Average Joe American would be a pretty fascinating guy if it wasn't for his girl friend.

He'd be just the kind of a human she wanted him to be, but is afraid to let him be.

She's the rope which has him tied to his job and, the pity of it, to the past.

WHEN HE STARTS out—about seven-years-old—he has dreams of adventure. It's Africa or Europe or else the FBI. He wants to travel, to do things.

When he gets into high school his thoughts become calculating, and he settles down. But still he talks of empires. Perhaps he is still fascinated by Africa, but no longer with that Tarzan-like idea. The future is just beginning.

COLLEGE COMES quickly. Here he's at his peak. He begins to move about the country. He starts planning a career of different jobs, all of which lead to the top one, the most important one. He goes on trips to California, visits New York, studies a bit of painting and is interested in the French—he'll have to know it when he gets to Paris.

AND THEN, unluckily, she comes over and sits down in the next booth. From then on, it's downhill.

The game begins. First she hooks him—solid, then she talks about security, about the job in her father's bank "just waiting for you," and she laughs—or smiles—at his mention of France. "Dear, we can't afford that." And so he can't.

But still Joe holds out; "Not that bank!"

LET'S SAY OUR boy wanted to be an engineer.

Her father says: "Son, the engineer field is loaded. Loaded with good men. You'd be traveling constantly and it would be years before you'd make any money."

He weakens a bit.

Her mother says: "Joe, we'd love to have you in the bank. It's a good job, pays good money, and the two of you would be closer to us."

He considers a little longer.

She says: "Joe, if you take the bank job you'll be married right away and settle down right here." And he joins the bank.

THE DREAMS OF BUILDING roads in Alaska, Europe and Asia are not gone. They're just impossible now. Joe, as they say, is in his rut.

Come Monday, he'll be at work at the bank—not that there's anything wrong with the bank, he just doesn't like it. He'll join the country club, learn how to play bridge, buy a car and settle down.

BUT WHEN HE has created a son in the image of himself, he'll not let the spirit of adventure die. He just imports it to his offspring.

"Alfred," he'll say, "the world is not closed to adventure. Just move beyond these boundaries and seek the unknown. There's a wonderful life ahead of you, Alfred. The world is yet to be explored."

ALFRED'S DREAMS are kindled. He envisions a world of space ships, rocket journeys, trips to Mars. Looking heavenward, Alfred vows he'll not be an earth-bound cloud. Then comes the day he meets Myrtle.

"Alfred," Myrtle says sweetly, "Father says if we get married and settle down he'll..."

Nominating of 12 Candidates for Chamber to Close

The nominating of 12 candidates for the election of six Dixon chamber of commerce directors is to close Monday, Jan. 21, at 5 p.m. The end of the mail-nomination was announced today by Miss Frances Patrick, local chamber secretary.

From the highest 12, six will be chosen in the final election, sometime before Feb. 18, as the new members of the chamber's board of directors.

Letters were mailed to the approximate 240 members, giving each the opportunity to nominate six members to replace the retiring directors.

Retiring Members

Directors who are retiring are: C. L. Ballard, Harry Bates, Harold Cook, Glen F. Coe, Henry O. Lovett and L. J. Welch. The six who will remain in office are: Louis Berrettini, Victor Eichler, Carl Hasselberg, Lyle Prescott, Carl Matson and George Lindquist.

Voters must place their ballot in the sealed numbered envelope mailed to them and send, or deliver in person, to the chamber of commerce before the Jan. 21 deadline.

U.S. Investigates Shortages of Stored Grain

Commodities Vanish From CCC Storage

Sec. Brannan To Be Called Before Senate Hearing

WASHINGTON — (AP)—Comptroller General Lindsay C. Warren told senators today he had ordered a "full and complete investigation" of shortages in the Agriculture department's grain storage program, after his auditors found shortages of more than \$3,800,000 in a single office at Dallas, Tex.

Warren testified before the senate agriculture committee. Secretary of Agriculture Brannan and a dozen assistants waited their turn to explain the cases under probe.

Why Delay?

Senator Anderson (D-NM), former secretary of agriculture, closely questioned Warren and his auditors on why there had not been prosecution of the shortages, or why there had been delays in prosecutions.

Involved in the inquiry was government-owned grain and other farm commodities, obtained in the farm price support program.

It was stored in elevators and other storage centers and the shortages or "conversions" are blamed by Brannan on "individuals of the grain trade," not agriculture department employees.

Both Anderson and Senator Aiken (R-Vt.) referred to the shortages as "stealing" and "embezzlement."

Previously Reported

Spokesman for the Agriculture department and Brannan previously had disclosed some of these shortages and said prosecutions had been started in some of them.

They indicated that the shortages represented a relatively small amount in the widespread 10 billion dollar farm loan program.

Chairman Ellender (D-La.) of the senate committee said the purpose of today's meeting was to decide how thorough an investigation was needed into three matters:

- They are:
1. A GAO report listing shortages of more than four million dollars in grain storage programs operated by the Commodity Credit Corporation (CCC), an Agriculture department agency.
 2. A charge that a Kansas City, Mo., concern made thousands of dollars profit by leasing surplus army buildings at Camp Crowder, Mo., and then subleasing them for grain storage to the CCC.
 3. A charge that government

Dixon Man Named On Tax Committee

H. O. Lovett, president of the Dixon National bank and a director of the Dixon chamber of commerce, has been appointed to the state and local taxation committee of the Illinois state chamber of commerce.

Lovett is one of the 90 business executives and tax specialists from 44 communities in the state serving on this committee.

U. S. Grants General Motors \$60 To \$103 Increase on New Autos

WASHINGTON — (AP)—The government today upped wholesale prices on General Motors Corp. automobiles ranging from about \$60 on Chevrolets to \$103 on Cadillacs.

The increase is on wholesale prices at the factory.

The Office of Price Stabilization authorized the increases under the Capehart amendment to the Economic Controls Law.

This amendment enables manufacturers to increase prices in proportion to increased expenses. General Motors in its application pointed to higher costs of labor, material and overheads before last July 26.

OPS said it has no information as to whether GM plans to put the new prices into effect. Before doing so, the auto corporation must file with OPS a list of proposed new dollar-and-cents wholesale ceilings and suggested new factory retail price lists.

The estimated dollar increase

Bulletin!

WASHINGTON, (AP)—President Truman and Prime Minister Churchill today announced an agreement under which the United States will supply Britain with steel in return for aluminum and tin.

The steel from the U. S. will amount to one million long tons (a long ton equals 2,400 pounds). In return will be 55,000,000 pounds of aluminum and 20,000 long tons of tin from Britain.

FBI Raids Kentucky Gambling

WASHINGTON — (AP)— The arrest of seven persons and the seizure of hundreds of costly gambling machines in Kentucky today was announced here by FBI Director J. Edgar Hoover.

Hoover said the machines were valued at \$351,500 and that a number of them are the deluxe console type of slot machine which permits play by several persons at the same time, for varying amounts of money.

Reports so far received here said 1,396 machines have been seized in 12 key cities and in rural areas throughout Kentucky.

The FBI chief described the Kentucky roundup as a continuing drive on violations of the federal law against interstate transportation of gambling devices.

He described those arrested as dealers in gambling machines, illegal under Kentucky law as well as under the federal statute.

FBI agents and local officers, traveling with vans, he said, made rapid seizures in private and public clubs, cafes, and various places of amusement.

Truman Hints He'll Again Lead Demos

WASHINGTON — (AP)— Rep. Sieminski (D-NJ) after a call at the White House today quoted President Truman as telling him: "I never quit under fire or ran away from anything."

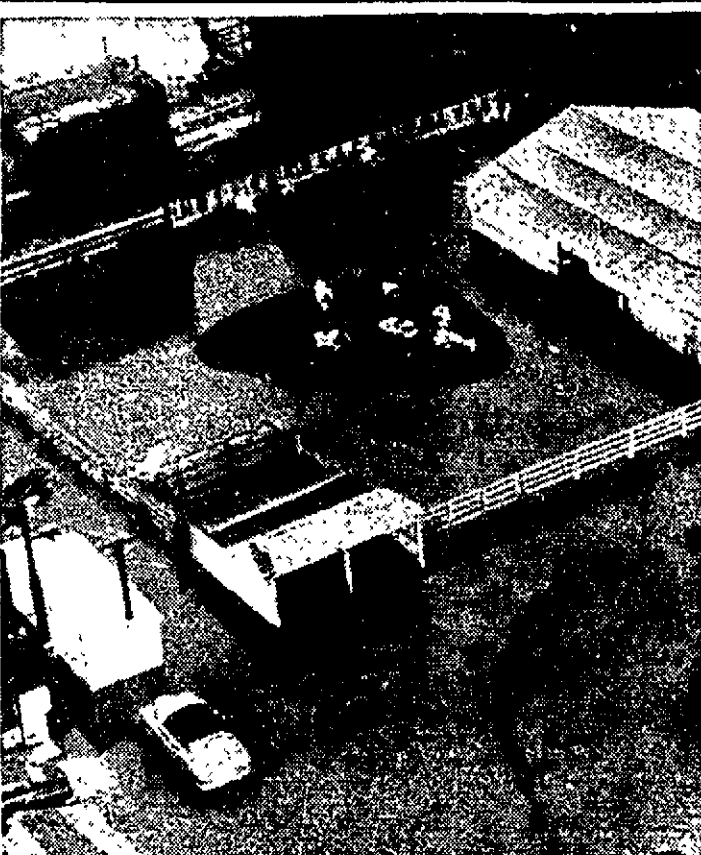

Sieminski said Truman made that comment while he was "just talking to the president about the leadership and of the needs of the people and things that are for the good of the country and how the Republicans talked about instrumentalities while the Democrats stressed the needs of the people."

Asked by reporters whether he thought Truman would seek the presidency again, Sieminski replied:

"If there is a fight and he's asked to join, he'll fight—he'll never quit—that's my opinion."

Sieminski is one of a series of Democratic congress members who have been staging a regular parade to the White House either to urge the president to run or to try to learn his intentions.

Senator Anderson (D-NM) said this week he was convinced that Truman ultimately will yield to a Democratic party draft.

'Prayer for Today'

"A Prayer for Today," a new Evening Telegraph feature, begins today on the Editorial page and is sponsored by the Dixon Council of Churches.

Twenty-six leading churchmen from 18 dominations have been selected by the National Churches of Christ in the U. S. A. to write the daily column.

It will appear six days a week and the prayers are written to touch on all areas of life. Writers were nominated to the Council by their denominations and come from all sections of the United States and Canada.

The Dixon Council of Churches and The Evening Telegraph are cooperating in this new feature because they believe that newspaper readers need this kind of prayer help in solving the perplexing problems of everyday living.

Governor Orders Directors to Tighten Up State Inspections

SPRINGFIELD — (AP)—Gov. Stevenson has ordered his cabinet members to tighten up state inspections as a result of the horsemeat scandal and cigaret tax frauds.

The governor called his 13 state code department directors together late yesterday and told them to give more personal attention to the state investigation services.

At a news conference later, he said he was not implying that investigators are "loafing or dishonest."

"But I do say that it's up to the directors to find out. You can't trust a division to investigate itself," he said.

Not Properly Trained

"It was quite apparent in the cigaret tax investigation," he added, "that the fellows were not properly trained in their duties and means of detecting counterfeit stamps."

The governor said this also applied to the horsemeat experience. Stevenson last Monday fired Charles W. Wray as superintendent of the division of foods and dairies in the Agriculture department. The action was taken in connection with the sale of illegal horsemeat.

Can't Get Perfection

Stevenson told reporters that

2 More Fired In Horsemeat Investigation

SPRINGFIELD — (AP)— Two more inspectors in the state division of foods and dairies have been fired in the continuing probe of illegal horsemeat sales, Director Roy E. Yung of the state agriculture department announced today.

They are Clarence Cox of Clinton and Boyd Bennett of Newman.

Yung told a news conference that both men had admitted laxity but that Bennett later had retracted all statements he made.

The statement by Cox, which was unsigned, was made to two assistants from the attorney general's office who are helping in the department's investigation, Yung said.

Both Cox and Bennett are still being questioned, he added.

Four inspectors previously were fired in the horsemeat investigation for refusing lie detector tests. Charles W. Wray, superintendent of the foods and dairies division, was discharged last Monday.

Issue Warrants Against Three For Illegal Sale of Horsemeat

WAUKEGAN — (AP)—Warrants charging conspiracy were issued today against operators of the Johnsburg Packing Company in the investigation of illegal horsemeat sales in Illinois.

Robert Nelson, Lake county state's attorney, said he obtained warrants against Joseph Sciallano, who already is charged with bribing the former chief of the state's food inspection service; Tony Rossi, Russell Minnea and John King.

Nelson identified Rossi, Minnea and King as associates of Siciliano in the packing firm.

Employees Talks

Nelson said his own investigation turned up information upon which the conspiracy warrants were obtained. He said the information came from a former employee of the packing firm. He refused to identify the informant by name.

The prosecutor said the 24 hour a day police guard over Charles W. Wray, former chief of the state food inspection service, was withdrawn yesterday at Wray's request. Wray had asked police protection when he was fired after

Lawmakers Shy From Churchill Plan for Suez

Most Congressmen Agree That We Must 'Tread Same Path'

WASHINGTON — (AP)—Most members of congress agreed today with Winston Churchill that in the uncertain years ahead Britain and the United States must "tread the same path."

But the lawmakers both major parties shied away from the prime minister's suggestion that "token forces" of the United States and other nations step into the Suez canal zone dispute.

Others saw dangers in Churchill's requests for U.S. steel, or his eloquent but grim forecast of possible troubles in Southeast Asia and the Middle East.

Confers With Truman

After his thunderous reception by the joint session of congress yesterday, the 77-year-old statesman turned to another conference today with President Truman.

This is believed to involve the touchy question of the Atlantic naval command, under the North Atlantic Treaty Organization.

Churchill, long a proud defender of British prestige, was reported opposing a unified command in this area that might dim the traditional British naval control over sea lanes approaching Western Europe.

Big Four Problem

Some congressional opposition seemed to be piling up against Churchill's statement that "freedom of the famous waterway of the Suez canal" should shift from present British responsibility to a "four-power approach."

He said the United States, France and Turkey might join England in the Suez to protect world interests.

Senator Bridges (R-NH), GOP leader speaking as an individual, questioned this, saying, "I can't see anything there at the present time that would affect U.S. security."

Senator Monroney (D-Okla.) said there is "serious question whether we should be involved in it" (the Suez dispute).

"Disconcerting"

Senator Gillette (D-Ia.), a member of the foreign relations committee, said he found it "a bit disconcerting that such problems as the commerce of the Malay peninsula, the protection of the Suez canal and the various interests in the Middle East were not primarily the United Kingdom's responsibility but one in which the free world must share."

Rep. Richards (D-SC), chairman of the house foreign affairs committee, applauded the speech "as one of the greatest I ever heard by one of the greatest men of the age."

"Who could blame the old lion if he seemed not to realize that the Victorian colonial and empire system is a thing of the past," Richards added.

Unlike some of his colleagues, Richards agreed it may be necessary for the United States "to participate."

Thousands Moved From Deluge Area

Worst Storm in 50 Years Threatens California Cities

LOS ANGELES — (AP)— Two thousand families were ordered evacuated today as a night of deluging rain poured floods into flatlands south of here.

The sheriff's substation at Norwalk announced that the Coast Guard, moving 10 miles inland from the Pacific, would undertake to move the 6,000 or more persons from the path of rising waters.

The emergency centers are the communities of Norwalk, Artesia and Hawaiian Gardens, southeast of here. The Coast Guard moved up from its bases at Long Beach and San Pedro with boats and amphibious equipment of all types.

200 Rescued

Another critical situation in the San Fernando valley north of Los Angeles proper apparently was well in hand, although some 200 families had been taken from their homes in the Reseda area.

As welcome sunshine broke through the clouds shortly after dawn, the picture through much of southern California was one of rushing torrents, mud-closed highways and stalled cars.

By 8 a. m., the storm had brought 4.17 inches of rain in Los Angeles in 18 hours. Higher amounts fell on foothill communities which ring the city and despite flood control channels and spreading basins, the immense volume of water was ripping over roads and cutting into canyon banks as it rushed toward the Pacific.

Worst in 50 Years

The entire state has been plagued by the worst storms since the turn of the century this week, and northern California braced itself for another one beating down from the Gulf of Alaska.

Virtually all main railroad and highway routes across the Sierra have been closed and there is general transportation chaos.

The southern California area had hardly 24 hours respite from the Tuesday-Wednesday storm when the downpour began again yesterday. This sudden storm which developed off the coast surprised the weather forecasters. Nine new deaths were reported.

Schools Closed

Schools in Los Angeles City, Pasadena, Norwalk and El Monte were ordered closed today because of the heavy rain, many flooded streets and intersections. There were 40,000 absentees in Los Angeles yesterday. Principals will be on hand to care for any children who show up today.

Southern Pacific trains, north and south bound between Los Angeles and San Francisco, were blocked by washouts or high water. Eighteen inches of snow on the Ridge Route (U. S. 99) between here and Bakersfield closed that route to all traffic at 3 a. m.

The Southern Pacific railroad reported at 1 a. m. that both its Coast and San Joaquin valley routes northward to San Francisco and Sacramento were closed.

God Moves in a Mysterious Way

God moves in a mysterious way
His wonders to perform;
He plants His footsteps in the sea,
And rides upon the storm.

William Cowper was frail, sensitive, and
high strung. After three futile attempts at sui-
cide, being miraculously preserved, he was in-
spired to write this moving hymn. He lived
most of his life in mental gloom. Later, he was
helped through his melancholia by his faithful
friend, John Newton, the reformed slave trader.
Together, they wrote several great hymns.

To Hold Mock A-Bomb Raid Near Chicago

CHICAGO, (AP)—Illinois Civil Defense volunteers will get one of their biggest test workouts Jan. 27 when a mock A-bomb explosion is staged near Chicago's northern border.

The exercise, called "operation medical supplies", was announced yesterday by Lenox R. Lohr, state Civil Defense director.

The imaginary explosion, at Peterson and Damen avenues near the Chicago-Evanston boundary, will test the ability of Civil Defense workers to rush medical aid to the area.

Appeal for Aid After the simulated attack, Evanston authorities will appeal to Lohr for medical aid.

Lohr will notify county Civil Defense officials to package and deliver medical supplies to airports in Springfield, Champaign, Ottawa, Peoria, Decatur, Rockford, and Moline.

More than 800 dummy shipments will be flown from the seven downstate airports to Chicago area fields in some 150 private planes, piloted by the Civil Air Patrol, Flying Farmers and individuals.

The statewide alert will involve between 2,000 and 3,000 volunteer workers, largest number yet involved in a local Civil Defense drill.

Three Held For Iron Lung Fake

JONESBORO, ARK. —(AP)—Three Illinoisans have been charged with obtaining money under false pretenses after two of them were arrested while displaying an iron lung and accepting contributions of money.

Deputy Prosecutor Bill Penix identified them as Otto Saylor, 29, and Quilla Mae Saylor, 22, who were arrested in downtown Jonesboro Wednesday, and Sam Greco, whom the Saylor's identified as their employer. The Saylor's gave Springfield, Ill., addresses.

Greco was reported en route to Jonesboro from Springfield. Greco's connection with the exhibit was not made clear.

Penix said Saylor was freed on \$2,500 bond and Mrs. Saylor on \$2,000 bond yesterday after a municipal court hearing on charges of obtaining money under false pretenses and false advertising.

The prosecutor said the Saylor's exhibited an iron lung in a truck trailer and accepted donations. He said the couple, who pleaded innocent, had "linked their activities with the National Foundation for Infantile Paralysis," which is conducting its annual "March of Dimes" drive for funds to combat polio. He said they had taken in \$60.

Penix said the couple's purported sponsor is the Military Order of the Purple Heart, with headquarters in Chicago. The Purple Heart organization could not be reached immediately for comment.

The prosecutor said Mrs. Saylor was billed as "Ella Webb, the Girl in the Iron Lung," and was represented as a cured polio victim. Under questioning, Penix said,

Mrs. Saylor admitted she never had the disease.

Penix said the Saylor's told him Jonesboro was their first stop on a projected tour of the South and Southwest.

A THOUGHT FOR TODAY

Little things affect little minds.—Disraeli.

Little Aspirin Now in Sight
For Indo-China Headache

Before the Korean war, virtually every seasoned observer who went to Asia returned to describe Indo-China as the real hot spot, the key to the whole Southeast. Lately, however, that has been the forgotten front.

It may not be much longer. Reports persist of a Chinese Communist build-up of from 250,000 to 350,000 men on the Indo-Chinese border. The Chinese are said to be operating tactical training schools for the rebel Viet Minh troops led by Ho Chi Minh. And they are known to be supplying the rebels with large amounts of heavy armament.

Evidently the Communist insurgents are putting their lessons and their new material aid to good use. Battlefield accounts say they have abandoned guerrilla warfare and now employ frontal-type attacks. Heavy field artillery and Russian-type anti-aircraft guns with modern plane-tracking devices, are figuring in their operations; recently 10 French planes were reported downed by rebel ground fire.

Even without formal or "volunteer" Chinese intervention, the situation is becoming increasingly serious for the long-harried French forces in Indo-China. The French have successfully withstood all rebel assaults up to now. Under the late Gen. Jean de Lattre de Tassigny, they even pushed the Communists back toward the northern border. But there are many signs this virtual stalemate cannot last.

Though we are shipping the French sizable amounts of war material, it plainly isn't enough to produce decisive victory. It may not actually be sufficient to hold the rebels off indefinitely. For their gains in equipment and newly trained manpower are resulting in stepped-up pressure against the French defenders.

The French themselves do not plan to augment their forces to any large degree. Their commitments to European defense would prevent that if there were no other obstacle. But they suffer the further handicap of a shortage of top-grade officers.

Recently Gen. Alphonse Juin conferred in Washington with Americans and British generals on how to cope with this rising menace. Naturally he wants more help from the United States and other friends in the United Nations, especially if China should cross the border and join the attack. He professes not to want more ground troops but naval and air assistance.

No one on the outside knows for sure what our generals promised Juin, if anything. Naval help we could probably give, for whatever it is worth. But air support is something else. The Red air build-up in Korea has put a definite strain on our air forces there. We frankly do not have much strength to spare.

Undoubtedly we and the UN would do all we reasonably could to avert disaster in Indo-China. Whether that would be enough to achieve more than a prolonging of a strength-sapping stalemate no one can tell.

There does not appear to be any happy answer either for the French or for us, short of internal difficulties in Russia and Red China which might soften or destroy their aggressive punch.

A new gasoline lantern, for summer camps, farms and emergency uses, is handy to carry and gives off a light comparable to that of a 200-watt electric bulb and burns for nine hours on one filling. An attachable steel reflector and special handle convert it into a spotlight.

Barbed wire for cattle fencing, recently patented, is made of a single wire, with sharp barbs electrically welded to it at spaced intervals. It is designed to replace the old type, which has two wires twisted together and barbs twisted around one.

RUTH MILLETT

Knowledge Has Little Use
Unless Applied to Living

It's not how much you know, but how well you put your knowledge to practical use that is important. That fact, it seems to me, is one that should be impressed on every woman.

For women are avid collectors of information. They pour over books and articles on child psychology. The consumer magazines dedicated to home-making.

They soak up articles on marriage. They keep reaching out for more and more information. And they can talk brightly on any subject that touches their lives.

But all too many of them fail to put the facts they learn and even those they figure out for themselves into everyday practice.

It doesn't matter a bit if Mrs. S. has an advanced degree in child psychology and knows just what

is wrong with Junior, if she doesn't apply her knowledge.

KNOWLEDGE MUST BE USED
It doesn't matter how many articles on home-making Mrs. W. reads a month, if she doesn't put the new ideas into practice.

Mrs. C. might as well skip the many sound articles she reads on marriage if she won't exert herself to keep her own marriage a growing, happy relationship.

Most women today are well-informed about the jobs of home-making and child training. They can quote the experts glibly.

But the percentage of those who actually apply their knowledge is pitifully small. We women love to learn and we love to discuss what we know. But we often fall short when it comes to putting our knowledge to use.

HOLLYWOOD—(NEA)—Exclusively Yours: Donald O'Connor's making no secret of his disenchantment with his role of a mule's sidekick in UFA's "Francis" series. His current stint in "Francis Goes to West Point," he's hinting, may end his association with the money-making brayer.

"It's hard for me to retain the character," he told me, "because I've played the mule's friend so many times. The situations may differ, but the lines are the same."

Edith Head designed a black lace, low cut gown for Marilyn Maxwell, then warned her: "Never sit down in it, honey. If you do there'll be too much Marilyn showing. It's an eye-level dress."

Stan Laurel and Oliver Hardy will tour England for six months, leaving New York Jan. 23. TV plans have been junked until their return. "Halls of Ivy" is headed for television. Writer Don Quinn is New York-bound to wrap up a video deal for the Ronald Colmans.

Shelley Winters, who's saying she'll wed Italian Star Vittorio Gassman, was with tennis pro Jack Cushingham at Billy Gray's Bandbox. Rule out Carol Channing as the star of Fox's "Gentlemen Prefer Blondes." She's set to star on Broadway in "Can-Can."

So the big money isn't being spent for filmed video shows? Ha! NBC has 2 million dollars invested in Brian Donlevy's 39 TV film episodes of "Dangerous Assignment."

NOW, NOW, GROUCHO!
Groucho Marx' acidulous comment about RKO's gay light-hearted "Two Tickets to Broadway":

"If you don't like this picture, don't tell people. Howard Hughes has his own money invested in it and if it doesn't go over, he will have to stop lending money to the Bank of America."

Switch: Heavy-thatched Gale Gordon will wear a special bald pate for the TV version of "Our Miss Brooks."

Cornel Wilde's price per picture has jumped 50 per cent. The result of his success in "The Greatest Show on Earth" . . . Dick Haymes' answer to those TV offers to move East—he bought a home in Bel Air and will do his televisions from Hollywood . . . Barbara Lawrence and hubby Johnny Murphy are denying the stock rumors . . . Edward G. Robinson is set for another movie for Ben Hecht.

The kid types will change for Hal Roach's new "Our Gang" series for TV. The pooch with the circle around one eye will remain as is. Remember him?

Pat Neal's shopping for an Acapulco hacienda . . . They've dropped the Rodriguez from her name and she will be known as plain Estelita from now on at Republic . . . If his cut in the merchandising end of it is increased, Jim Davis will star in a TV series based on Zane Grey's "King of the Royal Mounted" for Steve Slesinger.

OH, WELL, HE'S HAPPY

Movietowners keep chuckling about the foreign character actor who pays a big fee to a press agent and takes ads in the trade papers announcing his bit roles. When not acting, he's a hairdresser at a Hollywood department store.

Monte Proser and Warner Bros. are huddling about the stage rights to "Casablanca." Monte wants to turn it into a musical . . . Errol Flynn will play a movie director who clashes with a minister in his independent production of "The Director."

Richard Erdman's telling about the star of a Broadway play who re-wrote a bad script into a hit show, then did a burn over the author taking the bows for the revised version. The star wired him: "If you don't stop taking the credit for this show, I'll play it the way you wrote it."

Overheard by Frank DeVol: One starlet to another: "It was very strange the way we met—we were introduced."

Rhonda Fleming's set for an album of musical comedy tunes with Columbia Records.

Nostalgic note: The doors to silent star Corinne Griffith's Beverly Hills office buildings are painted a bright orchid hue. Corinne was known as "The Orchid Lady" back in the days when she was First National's glamor girl.

There's a film deal on the front burner for "The Long, Long Trailer." Buddy Twiss' hilarious account of a cross-country auto junket with a house trailer.

French Unions Prepared to Stab Our Forces in the Back if Russia Strikes

(Copyright, 1949, King Features Syndicate, Inc.)

By WESTBROOK PEGLER

PARIS—I am afraid that I have failed to make clear the fact that in exposing the activities of two groups of American professional unionists in France I am not engaged in a mere continuation of the running fight which I have waged ever since 1937. It is true that this is another battle with them on another front but I should emphasize a much more dangerous threat to the United States and particularly to our young warriors who are already in Europe and those who will be sent to join them as the North Atlantic and other allied forces are brought into being.

The French General Confederation of Labor is dominated by true, fanatic Communists who are traitors to France and utterly devoted to Russia. This is the largest single union in France. It is a real fifth column. The Communists betrayed France and opened the gates to the German armies in 1940. This terrible act of treachery cost the lives of nobody ever will know how many patriotic French soldiers and civilians and made certain the conquest of France yet appreciated by our people. And we do not realize now the terrible menace to our own little force of expendables in Germany which these French Communist union bosses present. They are far behind our word from Moscow, as they waited before. Then they will strike at the nerve centers in France and paralyze the nation. They are street fighters and saboteurs and they have the initiative. They can do their damage before anyone can move to restrain or punish them.

The only sure way to stop them is to kill them off. This proposal sounds brutal. But we have now come to the admission that it is impossible to deal with Soviet Russia politically because her bosses are fanatical Communists and so we are preparing to fight them in a war to the death. Isn't that a little brutal? All talk of co-existence with this horrible thing is twitting nonsense. They have declared that the world is not big enough for them and us. You must not kid yourself about the character, the intentions and the destructive ability of the French Communists in the General Confederation of Labor. These people will jam the gears of French industry, throw the switches in the electrical plants, blow bridges, pull the crews off the trains and, in general, imitate the ferocious terror which the American Communists inflicted on cities in Michigan, Ohio and Pennsylvania during the wild insurrections which F. D. Roosevelt deliberately encouraged for the purpose of creating the CIO. This is not mere recrimination. It is historical fact. Our CIO sprang at our throats after the French sit-down strikes, using the same methods and organization. The CIO used Communist mob leaders.

The American Federation of Labor and the CIO saw in its present situation in France a chance to extend the power of their ruling bosses to continental Europe. This would mean more fees and dues, to be sure, but that phase of the temptation is trivial by comparison with their desire for power. God only knows why men seek power just as power. Mussolini and Hitler claimed patriotism. I have not read any claim by David Dubinsky of the garment workers that he has a patriotic purpose in hornoring into the domestic affairs of European countries with his secret agents and "ambassadors." He and Walter Reuther of the CIO seek power over here but for what purpose we have to surmise. They say they want to combat the Communist influence. Why didn't they do that in our country, then? They are trying to organize a thing called an international federation of free trade unions. But their own

Prayer for
TODAY

Our Father, we pray for the little children of our land, that they may grow as the child Jesus grew: in wisdom and in stature and in favor with God and man. Guide their footsteps in clean paths. Make them strong to defeat evil, to achieve good, to live independently, joyously, and with success that the Master of life approves. Amen.

—W. E. McCulloch

ery! Indeed it would. But not as bad as the slaughter of patriotic Frenchmen who accepted defeat after the Communists let the German army march in almost unopposed. The "collaborationists" just carried on for their loved ones as best they could under the conqueror's guns only to be massacred in thousands after the liberation on accusations by the very same traitors who suddenly reappeared claiming to be heroes of the underground. That was a real butchery. Nobody ever will know how many decent Frenchmen were torn to shreds by firing squads on the word of the same traitors who now threaten to repeat the process.

The great basic truth is that unions which are given power to betray or blackmail a nation or corrupt a system of government invariably do. All the terrible bloodpaths of Europe have been traceable to "labor" movements in which real labor was only a dumb, insensate monster driven by wicked men ambitious for power.

THE DOCTOR SAYS:

Should Probe Convulsions
To Guard Against Epilepsy

Mrs. O. K. asks for a discussion of the difference between epilepsy and convulsions. Some children do have convulsions which do not appear to be related to epilepsy, even though convulsions or fits are the most important sign of the latter disease.

Those youngsters who have convulsions of this sort are usually somewhat "nervous" children, but neither this nor any other feature of their physical or mental make-up seems to explain why they should develop "fits."

But fortunately they seem to get over the convulsions as they grow older without having suffered any permanent ill effects.

But any kind of convulsion should be investigated. This can be done much better now than in the past, thanks to the discovery and development of an instrument which measures the electrical waves in the brain. It is called an electroencephalograph.

Not only are the waves which can be recorded by this machine different in epilepsy from those of a normal person, the information which is obtained is of great help in deciding the seriousness of the epilepsy, what medicines to give, and how the patient is responding to treatment.

The least serious variety of epilepsy is called petit mal; in this there are usually no convulsions but only spells of brief loss of consciousness.

The treatment of petit mal is likely to be quite successful with

the drugs which are available today.

The more frightening form of epilepsy, known as grand mal, is accompanied by convulsions and loss of consciousness. A typical attack does not come without warning.

On the contrary, most of those who suffer from attacks get peculiar sensations for days or hours before the fit takes place.

These sensations are called the "aura" and they may take different forms. Sometimes the aura is noticed in the vision, sometimes it is merely a strange feeling in the abdomen.

The attack itself is often more unpleasant to the onlooker than to the one who has it. A loud scream or cry may occur at the beginning.

The victim quickly becomes unconscious but muscular movements may occur such as a drawing back of the head, tightening the fists and straightening the legs.

HORRIBLE FEELING
The face gets red and a person who has never seen an epileptic attack may feel that death is close. But the victim recovers, and having been unconscious remembers nothing about the attack.

The purpose of treatment at present is to make the attacks less severe and farther apart. While treatment is not yet perfect, many are helped by the drugs available and the outlook is by no means as dark as it used to be.

Jacoby on Canasta

Don't Throw Caution to Winds

By OSWALD JACOBY

"Please tell me if I was wrong or unlucky," requests a Chicago reader. "We were playing three-hand Canasta because our regular fourth had to work late at the office. In the first hand, with everybody needing 50 points, I was dealt the following cards: Joker, A-A, K-K, J-J, 9-9, 7-7, 6-6."

"I drew another seven and decided to discard it as a trap. I was planning to play for the discard pile since I had five good pairs."

"What happened to me shouldn't happen to a dog. I gave up another seven later on, and then a jack. Finally, one of the opponents picked up the discard pile, and made a canasta. The hand continued on for a while, and the other opponent melded out concealed. I still had no melds."

"Was it foolish of me to throw away those sevens in the attempt to win the discard pile? Does it pay to fight for the pile in the three-hand game?"

It pays to fight for the discard pile in the three-hand game, but it seldom pays to go all-out for the pile. It is usually unwise to break up a possible meld either as a trap or in order to make room for additional pairs.

What actually happened to my Chicago correspondent is far from unusual. One opponent had a good play for a concealed meld-out. He concentrated on building up his

hand and didn't worry about giving up the discard pile.

Hence he gave the pile away to the other opponent but managed to meld out before any damage was done. The only one who got hurt was my correspondent.

This sort of thing doesn't happen often in the regular four-hand game because there is no such danger as one opponent deliberately giving up the pile to another opponent. What's more, if you do lose the discard pile to the enemy in the four-hand game, you still have a partner to come to your rescue.

In three-hand Canasta it pays to fight for the discard pile without giving up any card that builds up your play for out. Keep all good melds, especially those of four or more cards.

You arrive at a large party and do not know the name of the person at the head of the receiving line.

WRONG: Greet the person, but don't introduce yourself.

RIGHT: Introduce yourself, so that the head of the receiving line can introduce you to the person next in line.

South Dixon Couples Are Party Honorees

Mr. and Mrs. Albert Krehmke and Mr. and Mrs. Merlin Pinegar were the honored guests at a party given by their neighbors and friends at the Loveland Community House recently.

Wilmer Gerdes was in charge of the entertainment which Sharon Holtzauer opened by playing selections on her accordion. Roy Kenney showed home movies of the neighbors at work and play and Munson presented slides of foreign scenes taken by his son who is in the United States navy, and of the flower shows which he, himself, had taken in Chicago and Monmouth, as well as the 1950 and 1951 Tournament of Roses floats.

Refreshments were provided and served by the women and a purse was given to each of the two honored families to purchase a gift of their choice for their new homes. Both families are retiring to make their homes in town after many years of farming in South Dixon township.

Officers of Beta Sigma Phi Council Installation, Tuesday

The Dixon organization of Beta Sigma Phi sorority which consists of three chapters, is headed by a newly formed council of representatives from each individual chapter. The officers are Mrs. Henry Pollock, president; Mrs. Earl Slagle, Jr., vice president; Mrs. Dwight Mondlock, recording secretary; Miss Mary Gurgerty, corresponding secretary and Mrs. Wendell Snell, treasurer.

Active members of the local Beta Sigma Phi chapter will attend the installation of the Council officers, to be held at the Loveland Community House, Jan. 22, at 8 p.m.

There are some 3,500 chapters located in every state in the United States, in all Canadian Provinces, in England, Scotland, Alaska, the Canal Zone and the Islands of Hawaii, Guam and Cuba. Chapters have been established for American members living in Germany and Japan. Today in its phenomenal growth, the Kansas City office, international headquarters, occupies three floors of the Congress building.

Besides the activities of international concern, individual chapters assume responsibility in campaigns and in welfare work. The local chapters are busy planning a Benefit Card party, the Annual Spring Fashion show and charity projects.

Beta Sigma Phi is a non-academic organization, which was created for young women in search of cultural and social activity. During the month of March, the chapter will entertain prospective pledges for the Spring Rushing.

Open House at Nachusa Honors Mrs. Lenore Harrell

Nearly 100, Sunday school pupils, former Nachusa Home residents, members of the Nachusa church and community and co-workers at the Nachusa Lutheran Home, greeted Mrs. Lenore Harrell, Wednesday evening. The open house honored the popular Mrs. Harrell who is retiring after seven and one-half years of service as girls' housemother at the home.

Pink roses and heather in a Madonna vase arrangement decorated the fireplace at the Girls' cottage in front of which Mrs. Harrell and Rev. and Mrs. LeRoy Weihe, received the guests. Rev. Weihe is superintendent of the home.

Refreshments were served from a lace covered table by Miss Darlene Wallace, Mrs. Denny Valle and Miss Ruth Snowbarger, co-workers of the honoree. Centering the table was a scene depicting winter and a touch of spring, snow covered greens were touched with spring flowers, pussywillows and blue birds.

Mrs. Harrell who will go to Eldora, Ia., to reside with her son, Dr. Richard Rogers and family, wore a corsage of pink bountiful roses with her plum colored dress for the party.

Dixon-to Mark World Day of Prayer Feb. 29

Beginning at New Zealand and continuing eastward around the world, Christians will observe the World Day of Prayer Feb. 29. The final observance will be in Western Alaska.

Christians in Dixon will be invited to join in the observance. The local services will be held at the First Baptist church. The speaker will be the Rev. Theodore Romig, DD, professor of missions at McCormick Theological Seminary in Chicago.

Formerly he was secretary of the International Missions Council of China. All Protestant churches combine for the annual services. Officers chosen to plan this year's program are Mrs. Beatrice Lanphier, St. Luke's Episcopal church, chairman; Mrs. W. D. Kreamer, First Methodist church, publicity; Mrs. Donovan Anderson, First Christian church, treasurer, and Mrs. Arthur A. Vinz, First Baptist church, leader.

Five More File For Precinct Committeemen

Five more precinct committeemen candidates have filed nominating petitions with County Clerk Sterling D. Schrock.

John C. Crabtree, 620 Lincoln av., has filed to run for Republican committeeman in Dixon's sixth precinct. D. J. Lyons also has filed for this position.

John I. Sheaffer (R), Palmyra, and LeRoy Lovering (R), Sublette, also have filed.

R. C. Gross, Franklin Grove, (D) has filed for the second precinct in China township and Lloyd Considine, (D) has filed for Harmon.

Pennies Gone, Oregon Youth Returns Home

OREGON—A two-year-old Oregon boy was home today after a delicate operation removed two pennies from his throat Thursday afternoon. He was reported in good condition today at his home.

The operation, which followed a series of consultations with physicians at Warmolts clinic in Oregon and a Dixon physician, was performed at KSB hospital by the Dixon medic.

The child, Richard Morningstar, son of Mr. and Mrs. Earl Morningstar, 1101 Fifth st., Oregon, found the pennies while playing on the kitchen floor. Mrs. Morningstar said she found she had dropped the pennies there and had forgotten to pick them up.

Noticed Choking

When she was putting the tot to bed, said the mother, she noticed the lad was choking and, suspecting he had swallowed the missing pennies, took him to Warmolts clinic.

There it was recommended the child be taken to Dixon where the equipment necessary for such an operation would be available. X-rays at the hospital showed the two coins were lodged in the boy's esophagus.

Thursday, the child was admitted to KSB and in the afternoon the pennies were removed with an esophagoscope.

Dixon Woman Gets Divorce

A divorce complaint was filed Friday morning with Circuit Clerk John O. Shaulis by Mrs. Marie King, 1121 Seventh street, against Robert W. King.

A decree was granted by Judge Robert L. Bracken during the morning session of court. Mrs. King charged extreme cruelty. She waived alimony rights and her former name, Marie Marshall, was returned.

The Kings were married March 16, 1950, in Richmond, Calif., and lived together until Dec. 23, 1951, according to the complaint. Dixon, Bales and Gunner represented the wife.

Mine Disaster Fund \$160,000

WEST FRANKFORT (AP)—Contributions for families of 119 coal miners killed in the Dec. 21 New Orient No. 2 explosion have passed the \$160,000 mark, Mayor Louis Harkins announced yesterday.

Harkins added that although yesterday was the closing date for raising funds, persons still wanting to contribute can do so.

Distribution of the money will not start until about Feb. 1, he said.

Harkins said \$75,726 was received at West Frankfort, \$44,877 at nearby Benton, and about \$40,000 has been contributed to Gov. Adlai Stevenson's fund in Springfield.

Grand Jury Will Report On Spellman

FREEPORT—A report is expected Monday from the federal grand jury investigating the disappearance of more than \$300,000 worth of government grain from the Spellman Grain and Feed company, Rochelle.

The hearings which adjourned last October were resumed to allow further investigation of the alleged fraud by the U. S. department of agriculture, according to Assistant U. S. District Attorney Robert C. Bourland.

Francis Spellman Jr., Rochelle, owner of the bankrupt Rochelle grain and feed firm, is accused of disposing of 163,000 bushels of government corn for his own profit.

The grain had been stored in the Spellman elevators for the Commodity Credit Corporation. The firm was declared bankrupt last July 17, after it was unable to deliver the 163,000 bushels of corn.

The government through bankruptcy proceedings is attempting to recover \$280,000, the estimated value of the vanished corn. The government also seeks \$35,000 storage charges paid to Spellman since September, 1949.

The federal grand jury will reconvene Monday morning when Federal Judge J. Sam Perry, Wheaton, will preside in U. S. district court here.

16 File for GOP Posts in Ogle County

OREGON—Sixteen Republicans have filed for 15 Ogle county precinct committeemen posts as of today. There is a contest in only one precinct.

The contest is in the second precinct, Byron, where Merle C. Chapman and Willis J. Lutz have filed for committeemen.

Others who have filed for the GOP spots are:

Charles Reid, third, Oregon; Chester Landers, first, Oregon; Amos Devries, Rockvale; Alfred Rosenbaum, first, Forreston; Elmer Neltz, Pine Creek; Edwin E. Carls, Monroe; E. Stanton Lewis, Marion; Leslie Harmon, Lincoln; Byron P. Sanderson, first, Flag; John Luxton, Dement; Jay Cratty, first, Mount Morris; H. E. Coffman, second, Mount Morris; William E. Lang, first, Buffalo; and Harold W. Typer, third, Buffalo.

Four Democratic candidates have filed for precinct committeemen. They are: Edward J. Flood, first, Oregon; Charles Reinema, third, Oregon; Moses Leary, second, Byron; and Henry E. Doyle, third, Buffalo.

In other filings, Martin V. Peterman has filed for Republican senatorial committeeman.

For the new county board of school trustees there are five filings: Harold D. Ross, Mount Morris; George B. Hoverland, Egan; John C. Clayton, Polo; Joe Shevman, Stillman Valley; and Clinton J. Hill, Kings.

Crews Begin Job Of Freeing City Of San Francisco

SAN FRANCISCO, (AP)—Southern Pacific workmen, having rescued passengers and crew from the City of San Francisco, today faced the gigantic job of freeing the snow-blanketed \$3,000,000 streamliner.

The S.P. has 350 men working on an around the clock schedule in the High Sierra's Donner pass area, where the luxury train has been trapped since Sunday.

Ironically, the first job is to free four rotary snow plows which became snowbound in initial efforts to free the City of S.F. The rotaries—any one of which normally could have cleared the way for the train—blocked approaches to it from both east and west.

Mountain crews were working toward the streamliner from both directions, hoping to bring it out before another severe storm can pile on more snow.

Treasury Boss Approves of Tax Shuffle

WASHINGTON —(AP)—Secretary of the Treasury Snyder today backed President Truman's proposed reorganization of the Internal Revenue Bureau. Snyder called it a plan to free the tax collection system "of any hint or suggestion of favoritism and influence."

The secretary and Internal Revenue Commissioner John B. Dunlap appeared before the house executive expenditures committee which is considering the reorganization plan sent to congress last Monday by the White House.

House action could come as early as next week on a resolution of disapproval introduced by Rep. Hoffman (R-Mich). Adoption of the resolution would kill the plan, to which congress has shown itself increasingly cool.

Under the law, presidential reorganization plans take effect within 60 days unless either house or senate acts affirmatively to reject them.

Truman offered his plan in the wake of disclosures of scandals within the revenue bureau.

There has been some opposition to the president's plan to reduce the number of tax collector offices from 64 to 25, placing them under civil service.

Snyder told the committee today that the revenue bureau was already moving in the direction outlined by Truman but needed congressional approval of a reorganization plan as basic authority for a revamped tax agency.

Two More in GOP Race for State Auditor

SPRINGFIELD, (AP)—Two more Republicans today stepped into the already crowded state contest for nomination as auditor. James E. Hill, 52-year-old Streator banker, became the fifth GOP candidate to file for auditor and William H. Brown Chicago, the sixth.

Lee Daniels, of Elmhurst, 62 DuPage county state's attorney, was the fourth to list himself in the race for the Republican nomination for the attorney generalship.

On the Democratic side, Joseph P. Burke, of Chicago, jumped into the contest for the attorney general's nomination yesterday. He will oppose the incumbent, Ivan A. Elliott, to whom he lost in the 1948 primary by 20,800 votes. Elliott plans to submit his petitions Monday.

The program was held at the Oil Implement Co. for the purpose of instructing county leaders on the 4-H tractor maintenance projects.

Those who attended the meeting will assist in setting up a county tractor maintenance school to be held in February or March.

Forty-one 4-H club leaders representing 16 counties were in attendance at the meeting. The school touched on phases of tractor maintenance including: Safety; owner's manual, ignition, lubricating, oil filters and transmission.

Two More in GOP Race for State Auditor

SPRINGFIELD, (AP)—Two more Republicans today stepped into the already crowded state contest for nomination as auditor. James E. Hill, 52-year-old Streator banker, became the fifth GOP candidate to file for auditor and William H. Brown Chicago, the sixth.

Lee Daniels, of Elmhurst, 62 DuPage county state's attorney, was the fourth to list himself in the race for the Republican nomination for the attorney generalship.

On the Democratic side, Joseph P. Burke, of Chicago, jumped into the contest for the attorney general's nomination yesterday. He will oppose the incumbent, Ivan A. Elliott, to whom he lost in the 1948 primary by 20,800 votes. Elliott plans to submit his petitions Monday.

Snyder told the committee today that the revenue bureau was already moving in the direction outlined by Truman but needed congressional approval of a reorganization plan as basic authority for a revamped tax agency.

Crews Begin Job Of Freeing City Of San Francisco

SAN FRANCISCO, (AP)—Southern Pacific workmen, having rescued passengers and crew from the City of San Francisco, today faced the gigantic job of freeing the snow-blanketed \$3,000,000 streamliner.

The S.P. has 350 men working on an around the clock schedule in the High Sierra's Donner pass area, where the luxury train has been trapped since Sunday.

Ironically, the first job is to free four rotary snow plows which became snowbound in initial efforts to free the City of S.F. The rotaries—any one of which normally could have cleared the way for the train—blocked approaches to it from both east and west.

Mountain crews were working toward the streamliner from both directions, hoping to bring it out before another severe storm can pile on more snow.

The S.P.'s mountain crews, to whom heavy snows are winter routine, say they can't remember a worse storm—or worse conditions.

Fine Amboy Man For Failing to Report Accident

STERLING—George Farley, 44, of Amboy, was fined \$25 and costs on a charge of failing to report an accident Thursday by Justice of the Peace Louis B. Oltmanns, Sterling.

Farley allegedly was the driver of an automobile which struck the car driven by Mrs. Laverne Schmidt, Sterling, at 8:30 p.m. Wednesday. He was reported to have left the scene and did not stop until his auto became stuck in a snow bank a block away.

Lawmakers Shy From Churchill Plan for Suez

(Continued From Page 1)

Participants in control of the (Suez) canal area."

Doubts Valve

Rep. Vorys (R-Ohio) doubted that sending U.S. forces to the Suez would solve Britain's problem with Egypt, saying:

"I think the solution would lie in better British diplomacy than in point action."

And Rep. Short (R-Mo), ranking minority member of the house armed services committee said:

"I don't think we are ready to send any force to the Suez, even a token force. But Churchill is a good showman. I wish we had one like him in this country to fight for America as he does for Britain."

Agreeing, Rep. Taber (R-NY), ranking Republican on the appropriations committee, put it this way:

All For Britain

"Mr. Churchill certainly looks out for Great Britain. If Mr. (secretary of state) Acheson were looking out for the United States half as well, we would be better off."

Most of the comment was highly laudatory.

Churchill reminded Senator Douglas (D-Ill) of a "combination of a bulldog and tugboat. He is a gallant figure."

Applause and laughter punctuated the Churchill oratory, with two of the loudest and longest rounds for these:

"I have not come here to ask you for money to make life more comfortable or easier for us in Britain. I have come here to ask not for gold but for steel, not for favors but equipment."

"If I may say this, members of the congress, be careful above all things, therefore, not to let go of the atomic weapon until you are sure, and more than sure, that other means of preserving peace are in your hands."

Guglielmo Marconi was granted the basic British patent on wireless telegraphy in 1897.

A Tribute to Our Western Union!

The man or woman who transmits words over a wire is, in every respect, a modern magician! Have you ever watched one of the old timers pound that telegraph key, sending out words faster than a crack secretary can type them? It takes experience of a high order to do that. Yet few of us appreciate the service that our Western Union operators perform. You write a message; a quick, friendly young man or woman has it on the wire in a matter of minutes. Speed is the essence of the telegrapher's life. He must be fast and accurate. He must serve you faithfully night and day. So we salute the Western Union. For they give wondrous wings to words!

Senator Lodge Defends Ike At Meeting of GOP Leaders

SAN FRANCISCO, (AP)—Senator Lodge (R-Mass.) offered Gen. Dwight D. Eisenhower to the Republicans today as the one presidential candidate "who could bring the world durable peace."

Lodge took sharp issue with Taft supporters who said the party would be risking its political future if it nominates a "glamor candidate" in Chicago next July. Lodge is national chairman of the GOP.

Eisenhower - for - President committee. David S. Ingalls, campaign manager for Ohio's Senator Robert A. Taft, said the party should not "select a good looking mortician, to preside over its death as a political organization." He urged the GOP national committee, in a speech last night, to aid in the nomination of a "militant Republican" such as Taft.

Believe in Ike. This obvious barb at Eisenhower drew from Lodge the declaration in a prepared address:

"The American people believe in Dwight Eisenhower because they see in him a leader—and a leader who can do the most to bring about a durable peace."

Former Gov. Harold E. Stassen of Minnesota puts in his bid for presidential nominating support at a committee dinner tonight.

California's Gov. Earl Warren made his appeal at yesterday's opening luncheon.

Lodge told national committee members the Republicans can't win in November unless they at-

tract some Democratic votes. He said Eisenhower would do that.

He Will Campaign

Lodge has predicted the general, commander of North Atlantic Treaty Organization (NATO) forces in Europe, will be able to take off his uniform and campaign before the July convention. Eisenhower said recently he is a Republican and would accept the party's nomination but won't join in pre-convention campaigning.

Lodge told the Republicans he couldn't speak for Eisenhower, but he pictured the general as the popular choice to "throw the rascals out" of Washington.

"Thieving tax collectors, influence peddlers and mink coats have awakened Americans to the need for drastic action on the national scene," he declared.

Ike in No Position. The Massachusetts senator replied to critics' assertions that Eisenhower is in no position to attack administration foreign policies by saying: If the general's advice had been followed at Potsdam "China could have been saved."

He said Eisenhower advised against attempts to bring the Russians into the Pacific war. The concessions made to the Russians in Asia to obtain their entry into the Pacific fighting were made at Yalta, which preceded the Potsdam conference.

Ingalls told the committee the party ought not to "buy a pig in a poke" in its nominee. He has

said Eisenhower isn't a candidate and won't be able to speak out on issues.

Taft A Republican

"There's one thing for sure," he said, "I have a candidate. The second thing for sure is that Robert A. Taft is a Republican."

Ingalls said "Hero worship is no substitute for faith based on known performance, neither is glamor or sex appeal."

Guy G. Gabrielson, the party's national chairman, called for unity among the Republicans, advising them to say nothing if they couldn't say something good about another party member.

Capt. Carlsen, Family, Relax

WOODBIDGE, N. J. —(AP)—Capt. Henrik Kurt Carlsen and his family relaxed today in their modest home, protected from admirers by a police guard.

The unassuming skipper of the doomed freighter, The Flying Enterprise, rested up from the tumultuous reception given him by more than a quarter million New Yorkers in that city yesterday.

His home town prepared for its own ceremonies tomorrow to honor Carlsen and promised that it will be "one of the greatest in New Jersey history."

A 24-hour police guard was ordered set up around the Carlsen home by Police Chief George A. Keating because, he said, the family is "obviously badly in need of rest."

From an airplane a mile high, the ocean's horizon would be about 95 miles distant.

Belly-Dancing Bride of Texas Oil Heir Has American Debut

MIAMI BEACH, FLA. —(AP)—Egyptian charmer Samia Gamal, who does not like to be known as a stomach dancer, made her American debut at a night club here last night.

Samia, who won the heart of Texas playboy Sheppard King, who turned Moslem to marry her in Cairo, appeared briefly (four minutes) near the end of a two-hour show at the Latin Quarter.

Her performance, which the night club management politely announced as a "Nautch" dance,

was accorded a reception that varied from enthusiastic to mere interest.

As one woman in the crowd of 300-odd who packed the night club said, "She's had such a buildup she couldn't go over very well even if she was terrific."

And Samia wasn't terrific. Samia was good, however. Her dance involved a certain amount of abdominal flexibility and was done with grace.

Entrepreneur Lou Walters, who brought her here from Europe at

\$2,500 a week with a four week contract, seemed pleased with her performance, although he said he thought it could have been a little longer.

After her appearance practically everyone, it seemed, went backstage to see her, including Sheppard King.

King, whose mother has finally forgiven him for marrying Samia, managed to work his way through the crowd to his wife. He dutifully kissed her.

How did he like her dance?

"I like it fine," he said.

It was the first time he had ever seen her dance.

"I guess you don't get to see too much of your wife," some one said.

"Isn't it the truth?" King said.

"We did it Again!"

That's the jubilant news that comes from Flint to every Buick dealer — and here we pass the thrilling story on to you. It sure is true for '52 that better automobiles are being built — and Buick is building them. Read the good word and you'll agree.

Let's pare this down to plain statements of fact and let them speak for themselves.

The dynamic darling pictured here is the 1952 ROADMASTER.

It has the mightiest engine in Buick history.

It has the biggest brakes of any postwar Buick.

It is the quietest car that Buick ever built.

It has the richest fabrics and smartest tailoring that ever graced a Buick's interior.

It has the greatest trunk space since spare tires moved off the front fenders.

It has the most superb ride in Buick history.

It has the finest carburetor that Buick research has ever devised.

And with all its new power, it delivers more miles per gallon.

But that is not all.

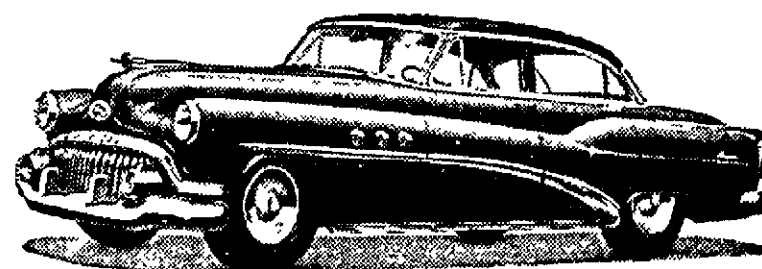

For those who wish it, there is a brand-new version of power steering that works like a helping hand — gives you the same sure feel of control you have always known in straightaway driving — takes less than one-fifth the effort needed to turn the ordinary wheel standing at curbside.

Sure, we're putting our best foot forward when we talk about ROADMASTER.

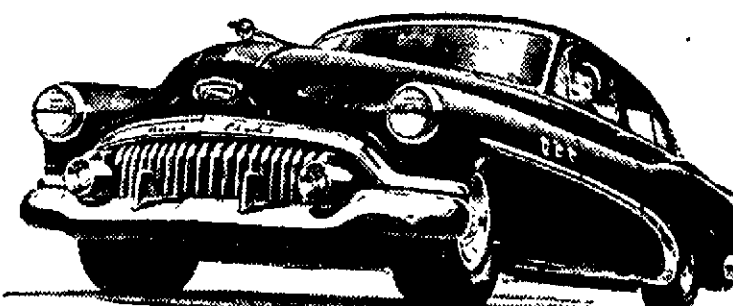

But you'll find a host of notable features in SUPERS and SPECIALS too — plenty to make them, as always, the standout buys in their

fields — for ride, for comfort, for style, for room, and for power.

Come in — look this triumphant trio over — and you'll know why every Buick dealer from coast to coast is going around with a smile on his face.

Dixon-Sterling Tilt Tops Area Card

But That Game At Amboy Will Interest Many

Clippers to Meet DePue's Powerhouse Before Full House

The old revenge motive will be uppermost in the minds of the Dixon Dukes when they take the floor against arch-rival Sterling here tonight.

Sterling handed the Dukes a decisive 51 to 34 lacing in the first meeting between the two teams earlier in the season at Sterling.

But since that game on Dec. 19 Coach Lon Scofield's Dukes have been a different basketball team. Their 2-1 North Central conference record proves that. And they would like nothing better than to keep their conference slate above the .500 mark with a victory over Gene Hall's Sterling team tonight.

Sterling also has a 2-1 conference record.

Amboy Hosts DePue
Other NCIC conference action—Ottawa at DeKalb, Rochelle at Princeton, Hall at Mendota, Geneseo at Rock Falls—is overshadowed by a non-conference game between Amboy and powerful DePue at Amboy.

Coach Orval Spurlin's Clippers will be meeting the state's No. 5 team, according to the latest Associated Press poll, and Amboy fans are expected to jam the new Clipper gym to watch the game.

(For details see Hugh's Views on this page today and watch tomorrow for City Editor Cliff Coughlin's report of the game.)

Other Dixon area action matches Polo and the power-laden M. Morris "Whiz Kids" in a Blackhawk game at Polo. Oregon is at Lanark in the other Blackhawk game.

Ohio at Wyand
Ohio travels to Wyand hoping to protect its Little Eight lead, but Ashton does not have such a pleasant assignment. The Aces must play the league-leading Forrester club at Forrester in Route 72 competition.

Other local games send the Dixon JV's to Franklin Grove, Steward to Malta and Pawpaw to Leland for a pre-Little Ten tourney conference game.

Comiskey's to Air Money Woes at Board Meeting

CHICAGO, (AP)—The Comiskey family carries its troubles from the parlor to the board of directors table today to see what can be done about young Charles A. Comiskey, II.

The clan's only male, 26-year-old "Chuck" has been kicking up a fuss about his status in the family baseball business—the Chicago White Sox.

The Comiskys, friendly enough on a personal and social basis, don't always harmonize when it comes to business matters.

Chuck resigned Monday in an official statement the protested an "inadequate" salary and a "day-to-day" term of office as vice-president and secretary of the White Sox.

DIXON EVENING TELEGRAPH

Page Eight
Dixon, Illinois, Friday, January 18, 1952

In Another Second, Another 'Pin' for Sterling's High School Wrestlers

DIXON'S GEORGE TYLER (on the bottom) was just about to get the final pat on the canvas indicating a pin from Referee Ed Lehr, of Rock Falls, as this picture was snapped by the Telegraph photographer. Tyler was pinned by Sterling's John Hansen in a 135-pound match as Dixon lost to Sterling, 45 to 10, in the dual meet in Dixon high school gym Thursday night.

This Fast Break Worked...

WAITSBURG, Wash.—(AP)—The fast break of a prison basketball team got out of control last night. It broke a man into the clear.

Merenus George Norgard, a substitute for the Washington State prison team, which was playing Waitsburg in a Walla Walla City league game, disappeared before the team started home from a 71-65 loss.

Sheriff's officers have spread a "zone" over Walla. Walla county featuring running guards. But late last night they had not located the escapee.

LAKERS BLAST REFEREES

'Eastern Refs Beat Us,' Manager Says

It will be quite a while before Syracuse basketball fans forget the night of Jan. 17, 1952. In the Nats' National Basketball league game with the Minneapolis Lakers, a total of 93 personal fouls were called.

Syracuse won the rough house affair, 110-105 in three overtimes.

In Minneapolis, Max Winter, Laker general manager, said he would seek the immediate removal of Pat Kennedy as chief umpire in the NBA. Kennedy assigns the officials. Hagan Anderson and Johnny Nuciatola worked the Laker-Uat game.

Kunoca Blasts Refs
Winter said he came to his decision following a phone call with Laker Coach John Kundla.

"I am asking Maurice Podoloff, NBA president, to call a special meeting immediately to talk over Kennedy's status."

"We're getting sick and tired of seeing Eastern officials beat us out of tough ball games that we should win."

Schayes Scores 41
Dolph Schayes was the big man for Syracuse. Schayes hit for 41 on nine field goals and 27 free throws. He collected seven of his charity tosses during the Nats' winning 10-point spurt in the third overtime. He also tied the game at 100-100 with three one-pointers in the second extra period. The veteran forward wound up the night by engaging in a fist fight with Bob Harrison.

The victory, the Nats' sixth straight, boosted their lead over Boston in the Eastern division to two games.

Sterling Tops Dixon, 45-10, In Wrestling

Sterling's wrestling squad gave Dixon another rough evening here Thursday.

The visitors defeated the Dixon grapplers, 45 to 10, in a dual meet in which every match ended in a pin. Dixon could manage only two individual wins. They were brought home by Tom Murphy, a heavyweight, and by Bob Ashford, promising 156-pound wrestler.

A good crowd watched the two squads in the early-evening exhibition.

In Sterling, Dixon faced an obviously experienced squad of wrestlers. The sport is in its first year at Dixon under the direction of Coach Sam Owens.

The results:

Scott (S) pinned Glenn Buck, 97 pounds; Card (S) pinned Joe Jones, 105 pounds; Johnson (S) pinned Dave Beaman, 114 pounds; Cox (S) pinned John Gorman, 122 pounds; Kosler (S) pinned John Malay, 129 pounds; Johansen (S) pinned George Tyler, 135 pounds; Kilberg (S) pinned Pat Kelley, 140 pounds; Maxwell (S) pinned Doug Rubey, 147 pounds; Bob Ashford pinned Fessler (S), 156 pounds; Kraft (S) pinned Pete Wolf, 167 pounds; Tom Murphy pinned Dir (S), heavyweights.

Chavez, DeMarco Slug to Draw

SAN FRANCISCO, (AP)—Brooklyn's Paddy DeMarco and Eddie Chavez of San Jose, Calif., put on a slugfest match last night that ended in a technical draw at the end of four rounds.

The scheduled 10-rounder was stopped with Chavez's right eye slashed and badly swollen.

Referee Frankie Carter said an "accidental butt" by Paddy did it.

The Brooklyn better had a decisive margin on all three official score cards. But California boxing rules require a technical draw decision in such cases.

DEAR HUGH:

I thought I'd drop in here today to warn some old friends of mine that the goblins will get them if they don't watch out. Also I thought I'd tell you that I'll drop into the Amboy gym tonight and report any disasters that may occur.

COACH ORVAL SPURLIN is a good friend of mine, and he might need a bit of advice. DePue, you see, is my home town, and that town's Little Giants are scheduled to play Orval's Clippers in the Amboy gym. Whatever the result, there'll be a disaster. If the Little Giants lose, it'll be the end of a 12 game winning streak. If the Clippers get bounced, it'll mean their first defeat in their new gym.

I'm a bit modest, Hugh, about the home town, but when a club is beaten only 13 times in 102 games, they must have something. I returned a week ago to see them against East Moline and can report that as far as I'm concerned they've got a pretty slick club. It's balanced and it can score! They had East Moline on the mat 22-6 before the first quarter was over, and wound up shooting 50 per cent for the night!

THEY'VE BEEN HELD under 60 points only twice this year I understand, and have a season's average of about 75 points a game. Their balance is shown in that the top three scorers, Don Talbot, Lupe Rios and Chuck Abbott, have a three-player average of about 48 points a game, enough to win most games for most clubs.

Down home they're saying that this team has the best balance of any of the four or five DePue teams that have come so close to being among the "Sweet Sixteen." I don't think they'll make it this year, either, Hugh, because of the lack of reserves and I believe they're a shade off in general all-around play. But they're versatile (they used three different offenses against East Moline) and they can score—brother, can they score! One loves to watch 'em!

THERE'S NO SECRET to their success, Hugh. I can honestly report that there's no "Paris" method of developing players. They step up and take their "cuts" at regular practice hours and scholastically, a star player is sacked just as anyone else. The reason they win so consistently (particularly outstanding for a school of 110 enrollment) is that everyone from the fifth grade on up is willing to learn, and above all, has the desire to play the game well! Not much of a secret is it?

The kids in the grade school (and they have an amazing won-lost record, too!) have an intense desire to shoot, pass and dribble well besides out-smarting the other guy. They waste no time in learning and once they slip into high school, the essentials are there. The school's frosh-soph team (they're unbeaten this year also!) is a good example of that. They pull blocks and cut-offs all quite naturally and, I confess, look better in fundamentals than many varsity clubs I've watched.

IF ORVAL'S CLIPPERS can trim the No. 5 team in the state ratings, they'll be entitled to a lot of praise. One thing about the Clippers, Hugh, is that they have that desire to win and play well, too, and this year have a little material to go along with that desire. I just want to warn Orval that this DePue club is almost all they say it is. I've a pretty good idea that he's aware of it, too.

Best regards

CITY EDITOR

Combes 'Puzzled But Happy' At Showing of Illini Cagers

CHAMPAIGN—(AP)—Basketball, as played by unbeaten Illinois, the nation's No. 2 college team, "accidentally" happens to be a defensive success, growing by leaps and bounds, and rebounds.

Harry Combes, seeking his third BIG TEN title in four seasons, said today his Illini's 11 straight wins had him as puzzled as elated.

Only Kansas ranks ahead of Illinois in the AP national poll and the Illini drew more first-place votes in this week's balloting.

"We certainly haven't been shooting consistently," said Combes whose team shares first in the Big Ten with undefeated Iowa, each with 4-0 marks.

Tops Defensively
"They say we're only sixth offensively in the conference (62½ average), but we're tops defensively (52½)."

"It just happens to turn out that way, because we make no effort at a slow-down or controlled type of game. We just try for that ball and hope the shot fall."

Illinois' over-all record bears just about the same victory ratio, a 69 to 57 average. The closest call was a 53-49 win over Wisconsin.

Combes conceded that the Illini are doing a bang-up job on the boards. But although a couple of sky-scraping lads, 6-8 John Kerr and 6-7½ Bob Peterson are constantly waving their hooks under the hoops, the slickest Illini article on rebounds is veteran Rod Fletcher, 6-4 guard. He gets more off each board than either of the big boys.

Bredar Nice Surprise
Combes described as a "real, real pleasant surprise," the development of Jim Bredar, a 5-11, 167 pound guard. Cat-quick, Bredar last Monday night shadowed Indiana's tricky Sam Miranda and held him scoreless until the last few minutes.

There exists a definite impression around the big Ten the Illini might be unbeatable this year.

Now midway in the regular 22-game schedule, Combes scoffs the idea. "In this modern era of basketball, an unbeaten season is darn near impossible. I'm not thinking about it and neither are the kids. We'll just go about our work on a game-to-game basis."

Illini Well Balanced
Illini balance is demonstrated by the fact that the team's top scorer, 6-3½ Irv Bemoras, ranks 12th in the conference with a 13.8 average. Next with an even 13 is Kerr, 21-year-old sophomore, who really has added a touch of terror to the Illini. No. 3 Illinois scorer is Fletcher whose 10.5 is 21st in the league.

Working with the more seasoned Peterson, the faster Kerr gives Illinois a double pivot and a defensive "double up" on the league's other towering players. They share center and frequently one moves to forward.

The Illini must mark time until

Coalition of Six May Beat Long's Man in Louisiana

NEW ORLEANS, (AP) — Six of the eight candidates who opposed Carlos Spah, Gov. Earl K. Long's choice for governor, in Tuesday's Democratic primary combined today in an anti-Long coalition backing Judge Robert F. Kennon for the Feb. 19 runoff.

Of the other two candidates, one said he would announce late today whom he intends to back.

The combined total of the six anti-Longites in Tuesday's voting, including Kennon's 151,812 votes, was 547,546 of the record 706,385 votes cast in 1972 of the state's 2112 precincts.

Arrayed against Spah, who received 158,839 votes, were Kennon; Rep. Hale Boggs of New Orleans, who polled 136,656 votes; James McInerney, Alexandria cattleman with 109,942; Lt. Gov. William Dodd with 84,527; Dudley LeBlanc, former patent medicine (Hadacon) manufacturer, with 56,922; and Lucille Grace, first woman to run for governor of the state, with 5,677 votes.

Unheard from yet were Kermit Parker, New Orleans pharmacist and the first Negro since reconstruction days to seek the governorship, who polled 5,158 votes; and Cliff Liles of Lake Charles, only candidate advocating legalized gambling, who received 1,422. Liles said he would announce late today whom he will back.

Churchill Is Brilliant But He's Living in 19th Century

By JAMES MARLOW

WASHINGTON — (AP) — Winston Churchill looks like what he is, an old man of 77. He retains what he always had, stubbornness and steadfastness. But he's the end of an era and can't seem to believe it.

He is a product of the 19th century, which he loves, and is astonished by the 20th. His speech to congress yesterday was full of valor but it was a study of nostalgia.

In World War II he was a steadfast ally which he remains now in the struggle with Communism.

Led the Victory

In the last war he showed the profound depths of his stubbornness when by his unyielding will against the Nazis he carried his people to victory the finest page in British history.

Counting the colonial empire it had acquired by conquest the 19th century Britain in which he grew up was the greatest single power on earth: Commercially numerically and militarily.

It is no longer that. Bled almost to death by war it was left impoverished, lacking the power and resources to hold its ancient empire. India, for instance, got its independence.

Losses Power

As its power dwindled, so did

its prestige, for the prestige had been based on power. Events in Iran and Egypt show how that prestige has suffered.

People everywhere after the war began to demonstrate their deep desire for national independence.

This became one of the great facts of the mid-20th century. During the war Churchill was unwilling, or unable, to foresee this. For it was he who said he had not become his majesty's first minister to preside over the liquidation of the empire.

For United Europe

Churchill told congress he not only thinks the other nations of Western Europe should be unified, and have a common army, but has urged it on them.

But as for Britain—no. He would not let Britain take part. He still seems to think of Britain as different and apart from Europe. He will not let it lose a shred of its identity in a merger with others.

Delay Grand Jury Probe of Meat Scandals

SPRINGFIELD, Ill. (AP) — A federal grand jury investigation of illegal horsemeat sales in Illinois has been postponed indefinitely.

Howard Doyle, U.S. attorney, said yesterday the inquiry, which was to begin next Tuesday, has been deferred to allow further investigation. No date has been set for the hearing.

Investigation of evidence that an estimated two million pounds of horsemeat was sold in Illinois as luncheon meat, hamburger and sausage was begun 11 days ago by the Office of Price Stabilization. Sale of horsemeat as beef

is forbidden by state and federal laws.

Illinois agriculture department investigators later joined the probe and questioned state food inspectors.

Fired for Bribes

Charles W. Wray of Wadsworth was fired from his \$6,000 a year job as chief of the inspection service after making a statement he had accepted \$3,000 to \$3,500 in bribes from a McHenry county meat packer to go easy on investigation of meat sales.

Joseph Scilliano, partner in the Johnsburg Packing Co., McHenry county, was charged with bribing Wray. He is free on \$10,000 bond pending a court hearing Monday at Waukegan.

The term "journeyman" originates from the French word, "jour," meaning "day." All workers were known as day laborers in the Renaissance period.

Leading Demo Says Party Must Punish Wrongdoers or Lose

WASHINGTON, (AP) — Senator Lehman (D-Lib, N. Y.), an administration supporter, who said today the Democratic party "will not hold or deserve the confidence of the people" unless wrongdoers are routed out of federal jobs and punished.

The New Yorker said (1) "corruption in government is bad on its own account" and, (2) it also provides America's enemies abroad "with deadly ammunition for propaganda against us."

Lehman's blunt election year remarks were in a speech prepared for delivery at a meeting here of the Women's National Democratic club.

Calls for Housecleaning

He called for a prompt and vigorous housecleaning by the Truman administration, and told a reporter before making the address he hopes Mr. Truman runs for another term.

"I think he is by far the strongest candidate the Democrats could put up," he said.

The senator spoke against a background of mounting indications Republicans will make the recent disclosures of wrongdoing in government a major issue in this year's presidential and congressional election campaigns.

As for foreign propaganda on the corruption issue, Lehman termed it serious but actually "only a minor note in the symphony of hate being played from Moscow," he added.

Reds Cite McCarthy

"While we refer to the denial of personal liberty behind the Iron Curtain, Radio Moscow points to McCarthyism in this country."

That was a reference to the Communists' in - government charges made by Senator McCarthy (R-Wis), whose methods Lehman has criticized in the past.

In another part of his speech, Lehman said without naming McCarthy:

"We should be shocked at the pillaging of people's reputations, at the stripping from them of their good names and characters, by political hucksters who, under the protection of legislative immunity, pillory people as Communists and subversives. This is indecent and immoral."

Told of Lehman's remarks, McCarthy said he had no comment.

Say Illinois Farmers Feed More Cattle

SPRINGFIELD —(AP)— Illinois farmers are fattening a half million cattle and calves, a few thousand more than a year ago at this date.

A survey by the state-federal agriculture department estimated the exact number on grain feed as of Jan. 1 at 504,000, up three per cent.

The department said yesterday that more than 400,000 have been on a grain diet three months or less, and that farmers intend to hold 65 per cent of the animals off the market until after April 1.

Says Critics Don't Understand New Post Card Rate

WASHINGTON —(AP)— The man who made postal cards cost more when bought in quantity lots than when purchased singly says critics don't understand the purpose of the plan.

The reason, said Rep. Hagen (R-Minn) today, is to keep the government from competing with commercial print shops that turn out picture post cards, and throwing men out of work.

Hagen was sponsor of a law that went into effect on Jan. 1.

It has come under attack by half a dozen congressmen who have introduced repeal bills.

Under the new law the price of postal cards—the government printed kind sold at postoffices—went up from one to two cents if bought in lots of less than 50. Over that number there is a 10 per cent sur-charge. Thus you can buy 49 cards for two cents apiece, but the bill for 50 is \$1.10, making the fiftieth card cost 12 cents.

The rate for mailing a commercial "post card"—the drug store variety bearing a picture of a beach or a pretty girl—also rose to two cents, but there is no penalty for quantity mailing.

Plan Parachute To Aid Rescue Of Woman, Son

BOISE, IDAHO —(AP)— The air force early today planned to parachute a toboggan into a snow-bound gold mining camp 50 miles northwest of Boise to evacuate a sick woman and her young son.

Mrs. Gene Jack will have to be hauled on the toboggan 11 miles through rugged, snowlogged territory to Featherville, and then transferred to an ambulance plane.

Mrs. Jack, reportedly ill with influenza, was treated with penicillin by two air force men who parachuted to the mine Wednesday.

The game of handball originated in Ireland some thousand years ago.

Truce Talks Drone on as Reds Balk

MUNSAN, KOREA —(AP)— Truce negotiators kept tempers in check today as they wrangled fruitlessly over terms of a Korean armistice. The only outburst came from a Chinese delegate who referred scornfully to America's allies as "running dogs."

Maj. Gen. Claude Ferenbaugh made his daily plea that the Reds promise not to build airfields in North Korea during a truce.

The Communists replied, as usual, that their pledge not to send combat planes across the Yalu during a truce was sufficient guarantee.

In an adjoining tent Rear Adm. R. E. Libby tried vainly to get Red negotiators to accept voluntary repatriation of war prisoners.

U.N. investigators made another trip to the protected Kaesong area to examine a crater. The Reds say it was made by an Allied aerial bomb Thursday.

Kaesong is headquarters for the Red truce delegation, and is designated immune from attack.

The crater is on a hillside on the outskirts of Kaesong. The Communists did not say any damage resulted.

U. S. Attorney Freed on Charge Of Tax Bribing

SHREVEPORT, LA. —(AP)— Whether suspended U.S. Attorney Harvey L. Carey, acquitted on bribe-asking charges, will be allowed to resume his duties remains a question that only U.S. Attorney General J. Howard McGrath can answer.

Carey, accused of soliciting a \$60,000 bribe from Texas oilman Lewis Hart, was acquitted last night by a federal district court jury after seven hours of deliberation.

McGrath suspended Carey from office in December, 1950, after an investigation by the Justice department.

From his home, Carey issued this statement:

"I am deeply gratified by the complete vindication of my personal and professional integrity."

He was indicted by a federal grand jury in March on charges he asked a \$60,000 bribe from Hart "to settle" 30 perjury counts pending against Hart and four of his employees.

Carey denied that he suggested a bribe. He testified that he "strung Hart along in hopes of catching a briber" and to see if the Federal Petroleum Board was involved.

SEVEN AIRMEN HURT

HOUSTON, Tex., (AP)—A B-29 bomber from Spokane, Wash., overshot a runway at Ellington air base here early today and seven men aboard were injured, three seriously.

The U.S. Department of Agriculture was established as a separate agency of the federal government by legislation passed in 1862.

Trade Publisher Shot in Tourist Cabin Holdup Try

VIENNA —(AP)— Harry H. Canada, a 61-year-old trade magazine publisher from Kansas City, Mo., was shot to death in a tourist cabin yesterday, apparently while resisting an attempted robbery.

A woman companion who identified herself as Mrs. C. A. Gaard, told police Canada resisted when a masked man broke into their cabin, demanding their rings. Mrs. Gaard said she was a bridal consultant in a Kansas City department store.

Canada was shot three times. The assailant fled when Mrs. Gaard started screaming.

Johnson County Sheriff D. E. George quoted the attractive, middle-aged widow as saying she recognized the gunman's voice as that of Taylor Pennington, 45, with whom she and Canada had been drinking earlier.

Pennington, who owns a tavern, was held without charge pending an inquest today. Mrs. Gaard is being held as a material witness, the sheriff said.

Canada was a partner with his divorced wife, Mrs. Mary Staiger, in publishing the automobile trade
